

## A touch of Japan at the French school

During the months of May and June, the Japanese Embassy conducted several workshops for our primary and secondary students - calligraphy, origami, karate - and also presented traditional Japanese toys, festivals and school life in Japan.

We also had the pleasure of welcoming the Japanese Ambassador, Mr Tanaka, who gave a presentation on environmental management in Japan to our 4ème, 3ème and second students.

We would like to thank the Japanese Embassy and their Ambassador.
